

# Speaker Bertil Schaart

Bertil Schaart Msc MBA is speaker, author in the field of sense making, mindset and personal power. He (re)connects people and organisations with their *strategic sense and purpose*.

Bertil inspires to take one's own responsibility in life and at work. He makes the audience aware of hidden social dogmas that limit thinking and subsequent action. By applying business thinking on a personal level, the mental context is expanded, issues dissolve and a new world of possibilities and power opens up.

His experiences of corporate life at several Fortune 500 companies, the start-up scene, job and soul seeker and entrepreneurship give valuable input for his presentations. Bertil motivates his audience by combining today's reality with humour and shares his own experiences and experiments, both positive as well as the 'educational' moments. Bertil is *"keeping it real"*.

## Biography

Despite a successful international career, every day felt as a lost day for Bertil. His burning desire for purpose made him take radical steps. He understood that only he was responsible for happiness and meaning in his life. By quitting his job, he started a complete new life.

He founded a website that encourages people to resign and take responsibility for their own life, thinking and action. This initiative propelled him to further pursue changing mindsets all over the world via business ventures.

Bertil holds a Master of Science degree of Delft University of Technology and an MBA degree from INSEAD.
